

**"Alternative Financial Instruments"  
"Loan-Bond-Sukuk" Forum  
Thursday, May 18, 2017, New York**

---

Dear Sir

US Share Fund is organizing a spectacular event on **Thursday, May 18, 2017**. This is a **"Alternative Financial Instruments" and "Loan-Bond-Sukuk" Forum** international meeting in the USA.

**Alternative finance** refers to financial channels and instruments that have emerged outside of the traditional finance system such as regulated banks and capital markets.

It is important to note that there is a need for a more efficient and cost-effective way to increase the profitability of the finance and loan market.

Examples of **alternative financing activities** through 'online marketplaces' are reward-based crowdfunding, equity crowdfunding, interest-free finance, participation bonds and profit sharing accounts and lending such bonds through production support, finance lease and profit/loss sharing partnership, peer-to-peer consumer and business lending, invoice trading third party payment platforms.

**Alternative finance instruments** include cryptocurrencies such as Bitcoin, SME mini-bond, social impact bond, community shares, private placement and other 'shadow banking' mechanisms.

**Alternative Finance** differs to traditional banking or capital market finance through technology-enabled 'disintermediation', which means utilising third party capital by connecting fundraisers directly with funders, in turn, reducing transactional costs and improve market efficiency.

**Alternative finance** has grown into a considerable global industry in recent years following the financial crisis according to various reports, particularly for small and medium enterprises.

This alternative finance models investors have been trying to lead their assets to safe investments.

For instance, the European **online alternative finance market** is estimated to have reached nearly €7bn in 2015 and is projected to reach **€8bn in 2017**.

Potential of working according to participation, sharing and ethical-Islamic criteria financial institutions and Finance Market Estimates \$3.4 Trillion by end of 2018. Finance assets represented 1% of the global financial market of \$127 Trillion in assets.

Alternative-ethic-safe-profitable financial instruments is a centuries-old practice that is gaining recognition throughout the world and whose ethical nature is even drawing the interest of all investors.

At a time where the International Monetary Fund warns that the global economy is sliding into "secular stagnation" due to a slump in commodity prices and a slowdown in investments, the Islamic economy stands in stark contrast, offering a viable solution to success in the 21st century.

Despite that global Islamic finance industry is projected to grow by 60% to \$3.2 trillion in assets by 2020, the industry still faces the dearth of Islamic liquidity management instruments. Relatively few instruments have been able to meet both the industry's needs and its stakeholders' full expectations.

**"Alternative Financial Instruments"**  
**"Loan-Bond-Sukuk" Forum**  
**Thursday, May 18, 2017, New York**

You are cordially invited to the "Forum" to benefit from one of the most important financial instruments, "Sukuk" that will energize your business and investments with 3 trillion dollar alternative financial instruments in the US. The forum will bring together issuers, borrowers, investors, and bankers in the US to discuss the developments of local and international bonds, syndicated loans, and sukuk markets. This forum aims to bring both audiences together to share ideas and insights, network with industry leaders, and develop key relationships. By attending this forum, you will network with key decision makers from existing and potential clients. Forum will focus on the key issues around structuring, issuing, and investing in alternative financial instruments and Sukuk. You will also gain intimate knowledge of how to gain value from alternative financial instruments Sukuk, whether you are a buyer or a seller.
