Private-cargo and business people transport aircraft,

Commercial-load and cargo transport, truck

Target Markets:

The auto finance market topped \$1 trillion in loans outstanding in 2015 thanks to record new vehicle sales and higher used unit volumes and pricing. New vehicles purchased by commercial fleets grew by more than 2 percent in 2015 to 629,000 units. Autos have been a gem in an otherwise dull economy, with new unit sales in 2015 up 68 percent from 2009's trough. New vehicle sales increased for an unprecedented sixth consecutive year, and the total, 17.5 million, was a record. Franchised dealers also recorded increased used vehicle sales for the sixth straight year, while a record 2.5 million certified pre-owned units were sold. Dealers consigned 56.5 percent of all units sold at wholesale auctions in 2015. New lease originations reached an all-time high in 2015, just shy of 4 million units.

With U.S. new car sales continuing to rise and demand for vehicles strengthening in developing countries, look for a significant spike in used car exports.
